Michigan Group to Launch State's First Spay/Neuter Hotline

June 30, 2008: 9:08 AM

All About Animals Rescue of Warren, Michigan is launching SPAY MICHIGAN, the state's first statewide spay and neuter hotline.

I recently met with All About Animals Rescue founder Amber Sitko. Amber is a real dynamo. Her group has been providing low cost spay / neuter for years out of a clinic they operate in a Warren, Michigan strip mall. The new hotline will enable pet guardians around the state to locate low-cost spay and neuter resources in their communities.

Nooters Club will help All About Animals Rescue promote the SPAY MICHIGAN hotline by featuring the toll free phone number on a special edition Nooters Club shirt. The hotline and t-shirt will be promoted in a statewide publicity campaign.

Right now we are working to identify rescue organizations, shelters and clinics around Michigan that provide discounted pet sterilization so we can add them to the hotline referral network.

If any readers know of any such groups in Michigan, or of any veterinarians who may want to join the SPAY MICHIGAN voucher program, please let me know. You can find out more about All About Animals Rescue at www.allaboutanimalsrescue.org.

Plans are to activate the SPAY MICHIGAN hotline by the end of July 2008. Yippee!!

PS - If any of the readers have launched and promoted such a hotline, I would love to hear from you. Any tips you may have would be greatly appreciated!
